

L48N-4.7hp

L48N Engine 4.7hp @ 3600rpm

Yanmar's new L-N Series of compact air cooled diesel engines exceed both power and environmental expectations.

Manual start and Electric start are available

Dry Weight

- **L48N with Manual Start is 27 KG**

Feature

- Compact, Direct Injection Technology
- Quick and Easy Start
- A little engine built to stand up to hard work
- Fast, effortless starts from a one-pull recoil starter
- The total FIE expertise only a complete diesel maker can provide
- Durability

Compact

Keeping with the tradition of compact design, the new L-N series are simple to install. It fits in cramped space without sacrificing power and performance.

Easy installation & Low fuel consumption

Easy installation, effortless starts and incredibly low fuel consumption make the Yanmar L-N series a smart choice for compact diesel power.

Direct injection Technology

Designed with Yanmar's proprietary direct injection technology, the L-N Series delivers frugal diesel consumption through a world-first miniaturised fuel injection system, low vibration and noise by utilising precision engine balancers plus quick and easy to start thanks to a standard recoil starter.

Durability

The design, structure and materials of L-N combine to form a rugged, hard working machine. Durability is assured with tough, yet lightweight alloys used for main engine parts plus an extra tough crankshaft ensures torque is always on demand.
